

FINISHING TOUCH

L5

BY MARIE KHOURI

Hand-carved by Canada-based sculptor Marie Khouri, the large-scale L5 Spine bench series is a modern and graceful design of five interlocking segments. Resembling the human spine, the flexible shape provides comfortable seating as well as a striking artwork suitable for an indoor or outdoor setting. The organic design plays with light and space creating a dynamic impact. Seen here in apple wood, the bench is also available in bronze and concrete. Peruse the collection at **Khouri.net**.
